PROFESSIONAL SUMMARY

PHP & Laravel Developer with 1+ year of freelance experience in full-stack development. Skilled in writing clean, scalable code using **DTOs, Services, Repositories, and API Resources**. Experienced in **payment integrations, multi-project management, and e-commerce solutions**. Strong problem-solving abilities honed through **competitive programming**, ensuring efficient and optimized solutions. Passionate about building structured, high-performance applications.

CORE SKILLS

PHP	Data Structure
Laravel	Algorithms
MySQL	OOP
HTML	Rest Api
JavaScript	Git & GitHub
Css	Filament

Work Experience

Smart Technology

Part-Time PHP & Laravel Developer | Remote

08/2024 – Present

Project1: Online Shop API (E-Commerce Backend)

Role: Full-Stack/Backend Developer (PHP/Laravel)

Technologies: PHP, Laravel, MySQL, RESTful API, JWT,Css, JavaScript (AJAX/jQuery), Stripe/PayPal

Key Contributions:

- Developed JWT authentication with role-based access (Admin/Customer/Guest).
- Built **product management** (CRUD, search/filters) with Laravel Eloquent and MySQL.
- Designed **shopping cart** (session/database) with AJAX for real-time updates.
- Managed **order lifecycle** (Pending → Shipped → Delivered).
- Integrated **Stripe/PayPal** APIs with webhook security.

Project 2: Multi-Platform E-Commerce Integration (Salla & Zid)

Role: Full-Stack/Backend Developer (PHP/Laravel)

Technologies: PHP, Laravel, Salla API, Zid API, OAuth 2.0, Webhooks, MySQL

Key Contributions:

- Integrated Salla and Zid e-commerce platforms via their REST APIs for centralized order management.
- Implemented OAuth 2.0 for secure authentication and data synchronization between systems.
- Developed automated sync for products, inventory, and orders to reduce manual effort.
- Built webhook handlers to track real-time updates (new orders, cancellations, status changes).
- Optimized API performance with caching strategies and batch processing for large datasets.

Projects

Online Shope System (Laravel && MySql)

- Built an online shop with **product listings, cart, and secure checkout.**
- Added **user authentication & role-based access control.**
- Integrated **discount offers & promotions** for customers.
- Developed **order tracking** for users and admin management.
- **GitHub Repository** : <https://github.com/fatemaasem/Ecommerce.git>

Education

Bachelor of Science in Engineering Sept 2019-June 2024

- AL-Azhar University
- Computer Engineering department
- Grade: Excellent

Route Diploma Oct 2023 - Apr 2024

- php &&Laravel track

Soft Skills

- **Communication Skills**
- **Time Management**
- **Presentation Skills**

LANGUAGES

- **Arabic (Native)**
- **English(Intermediate)**
